

OFFICE OF THE SHERIFF

COUNTY OF LOS ANGELES

HALL OF JUSTICE

JIM McDONNELL, SHERIFF

September 22, 2015

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
Los Angeles, California 90012

Dear Supervisors:

**LOS ANGELES COUNTY SHERIFF'S DEPARTMENT
REPORT BACK ON UNINCORPORATED AREA PATROL SERVICE
LEVELS PHASE I IMPLEMENTATION ASSESSMENT FISCAL YEAR 2014-15,
SIX MONTH COMPARATIVE REVIEW AND
SHERIFF HIRING PLAN UPDATE**

On June 22, 2015, the Board directed the Los Angeles County Sheriff's Department (Department) to report back on Unincorporated Area Patrol Service Levels and on the Department's hiring plan. Attached are the Department's responses which include the Unincorporated Area Patrol Service Levels Phase I Implementation Assessment Fiscal Year 2014-15, Six Month Comparative Review (Attachment I) and Sheriff's Hiring Plan Update (Attachment II).

The Unincorporated Patrol Phase I Implementation proved to be successful in enhancing law enforcement services to unincorporated residents and communities. The Department understands the necessity of the Unincorporated Phase II Implementation to further enrich the lives of unincorporated residents through more efficient and effective law enforcement services. However, currently, it is not prudent for the Department to move forward with the Phase II Implementation due to the extraordinarily high sworn staffing vacancies. Unincorporated Phase II Implementation will be sought once the Department successfully implements all recruitment plans and meets hiring goals as identified in the Sheriff's Hiring Plan Update.

211 WEST TEMPLE STREET, LOS ANGELES, CALIFORNIA 90012

A Tradition of Service
— Since 1850 —

September 22, 2015

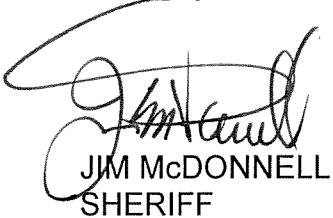

Attachment I reflects an overall improvement in response times to calls for service in the County's unincorporated patrol service areas through a comparative review of the first six months of 2014 (prior to Phase I implementation) to the first six months of 2015 (after Phase I implementation).

Attachment II reflects the Department's overall performance as it relates to an increase in the diversity of sworn personnel, including female applicants and military personnel, both active and retired. Attachment II also addresses the Department's current number of sworn vacancies and the projected Department Academy classes through July 2016.

The Department's recruitment strategies are aimed at diversifying sworn personnel. The Department has made significant strides in targeting female candidates, particularly, female veterans and minority groups in its recruitment campaign.

Should you have any questions regarding the Department's response, please contact Division Director Glen Dragovich, Administrative and Training Division, at (213) 229-3305.

Sincerely,

JIM McDONNELL

EXECUTIVE SUMMARY

The Unincorporated Area 2014 Patrol Assessment recommended the need for 123 additional deputies to improve patrol services in the unincorporated communities. In December 2014, the Board of Supervisors approved this increase and split the implementation into two phases. The initial implementation of 67 deputies in the unincorporated communities is referred to as Phase I. In addition to approving this unincorporated patrol increase, the Board of Supervisors requested that the Sheriff's Department report back on the effectiveness of these additional unincorporated area deputies.

Data Collection

This report provides statistical information that includes the recently approved Phase I additional deputy items in the unincorporated communities. This is comparative data between:

- January 1, 2014 to June 30, 2014 and January 1, 2015 to June 30, 2015.

Statistical Findings

The attached spreadsheets and graphs identify statistical information for each station that received additional deputy personnel. This report presents findings on response times, calls for service, total observations, Part I and Part II crimes, reports taken, and arrests. The overall statistical data was then analyzed by deputies per 1,000 population. An initial review of this data suggests that the addition of 67 deputy personnel was beneficial, especially in the area of improved unincorporated response times.

The overall results during the period of January 1, 2015 to June 30, 2015 compared to January 1, 2014 to June 30, 2014 offered the following statistical highlights (see attached charts for details):

- Response times decreased
- Calls for service increased
- Number of reports decreased
- Number of arrests decreased
- Part I Crimes increased
- Part II Crimes decreased

Conclusion

The findings recommend that additional deputy personnel assigned to the unincorporated areas shows improved response times, higher deputy visibility, and the workload per deputy has decreased and is now distributed equally to the additional assigned personnel. Also, every station that received additional personnel was given the opportunity to provide feedback regarding the benefits of these resources.

In summary, there is still a need for additional patrol resources in the unincorporated area. However, data provided in this analysis shows improvement in the unincorporated communities. The remaining 56 deputies would continue the trend of improved response times and workload efficiency. We believe that with these additional resources it may further improve response times to an acceptable level, increase workload efficiency, focus on high-risk areas, and reduce Part I and II Crimes.

This report was prepared by the Los Angeles County Sheriff's Department Unincorporated Area liaison staff at Contract Law Enforcement Bureau, (213) 229-1647.

2014 Staffing Data based upon FY 2013/2014 (575) Service Levels. 2015 Staffing Data based upon FY 2014/2015 (575) Service Levels.

Staffing data includes both Deputy Sheriff Generalist and Deputy Sheriff Bonus I allocated to a patrol function.

Staffing does not include supplemental personnel.

Assumes Population and Square Miles are consistent

Averages for Part I and Part II Crimes, Reports, Calls, and Arrests are data averages only and do not reflect totals for those areas.

(See Area Statistics for actual data).

North Patrol Division

STATION SUMMARIES

Lancaster Station

The three additional deputies added to the unincorporated area by the Board of Supervisors has had a very positive impact on the community. The additional deputies were strategically placed on shifts when statistics showed greater criminal activity. The additional deputies also concentrated their patrol time in areas where statistics showed a higher likelihood of criminal activity occurring. The highly visible, proactive deputies were effective in bringing down Part I and Part II crimes, which directly impacted a reduction in calls for service while also reducing response times. The additional deputies also had a positive impact on the quality of service given to the citizens we serve by having the additional deputies available to quickly respond to calls, allowing deputies more time to address the needs of the caller, and more time to investigate crimes, in order to locate and arrest those responsible for any violation of law.

Malibu/Lost Hills Station

Deputy presence improved in the Malibu/Lost Hills Station unincorporated areas due to the additional personnel. A decrease in Part I and II crimes in 2015 can be attributed to this increased presence. As a result of the increased patrol presence, our unincorporated patrol showed a decrease in reports and calls for service. The additional deputies not only deterred crime, but also proactively handled issues which reduced the need for citizens to call the station. In 2015, the station did see an increase in response times in the unincorporated areas despite the additional personnel. One possible explanation is the many months of road work that was done on Pacific Coast Highway (PCH) in Malibu. The extra traffic on the alternate routes caused congestion and hampered the deputies ability to traverse the station's large unincorporated area.

Palmdale Station

There was a noticeable reduction in response times. With the additional deployed cars, it was far more likely there was a county car in the area when calls were dispatched. This is particularly significant for Palmdale because the county areas are distinctly separated geographically. There is the East County, South County, and West County. All of which are generally on different sides of the city of Palmdale (100 square miles). It is over 55 miles (driving) from the East boundary to the West boundary of Palmdale Station's county area. Any loss of a county car in an area (e.g., tied up on a call, making an arrest, transporting prisoners) can drastically increase the response times as the deputies' traverse from one county area to another.

Santa Clarita Valley Station

The three additional deputies allowed for greater coverage on PM shift at the Santa Clarita Valley Station. The patrol area is large and it appears the location of the emergencies have caused response times to fluctuate in the unincorporated area. Emergency responses to remote areas of the unincorporated area spikes response times. Part I crimes are up in the unincorporated area by 9%, which Phase I appears to have helped when you compare it to the 27% increase in the city. There was a slight reduction in Part II crimes which we believe can be attributed to the additional personnel. Overall, call volume has decreased.

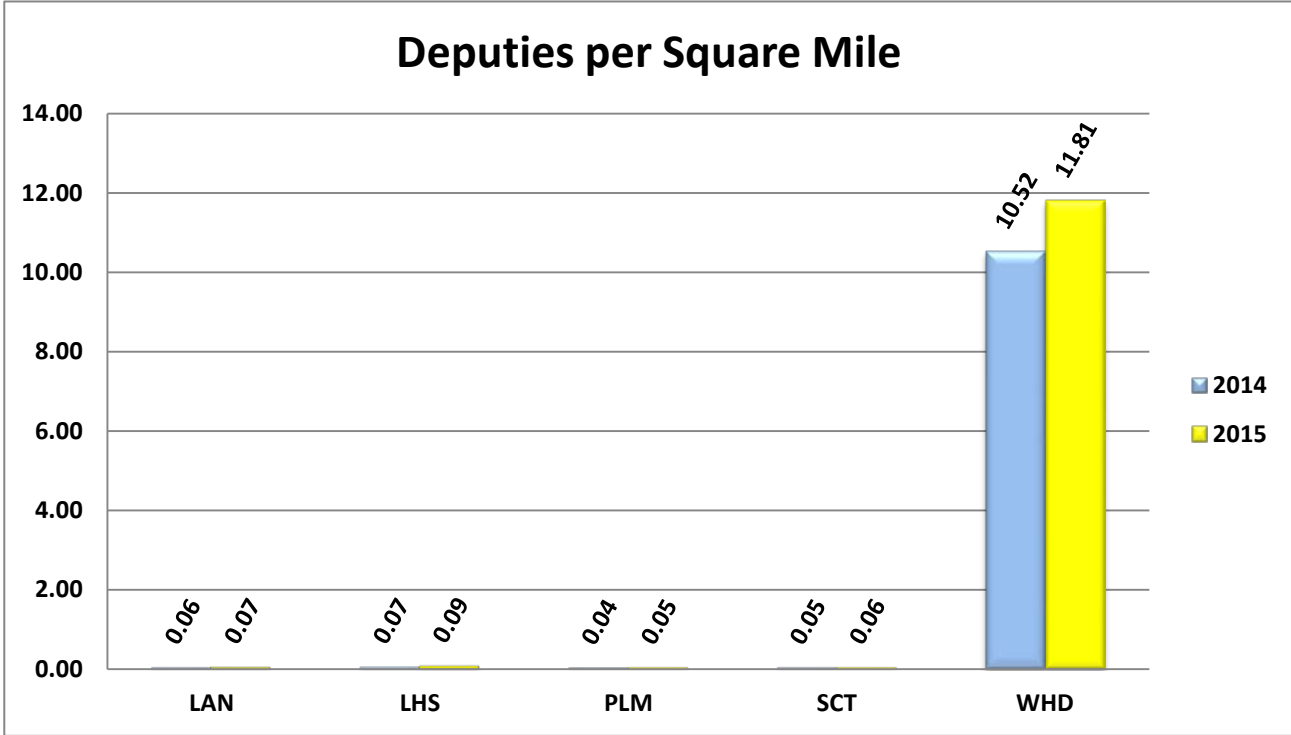

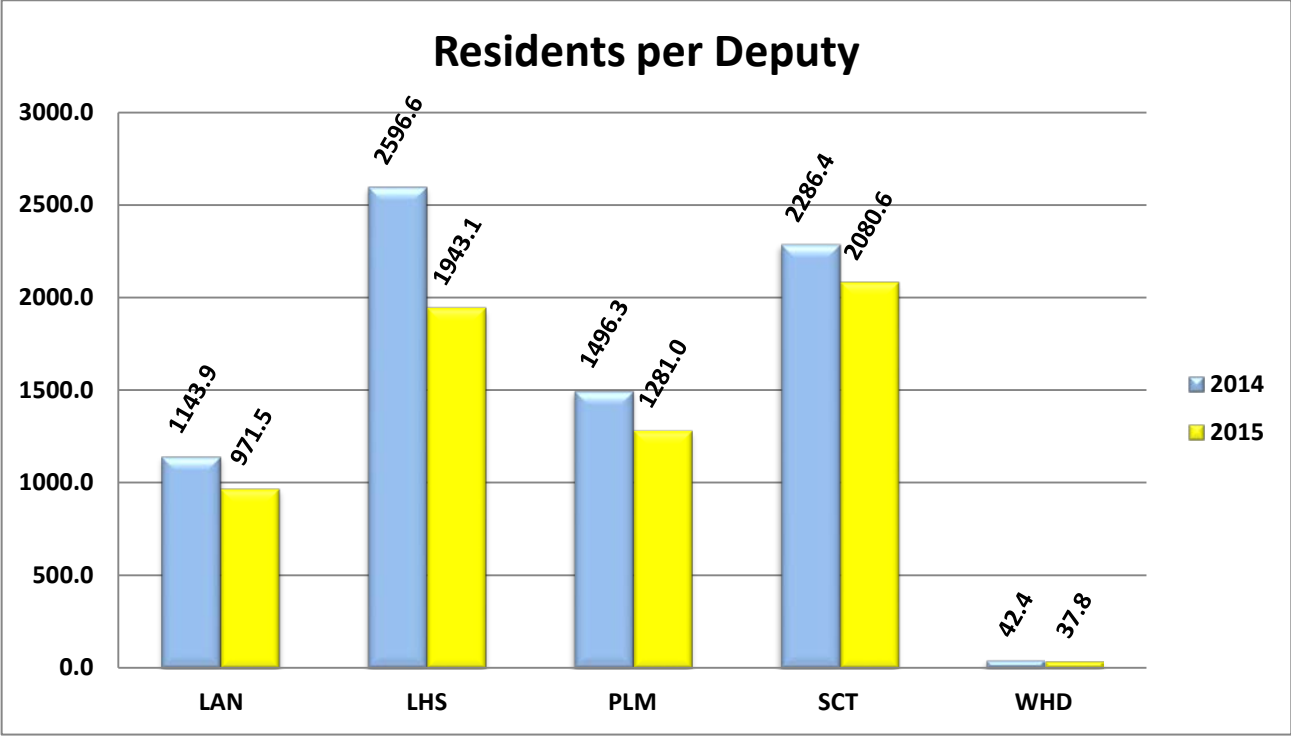

North Patrol Division

STATION SUMMARIES

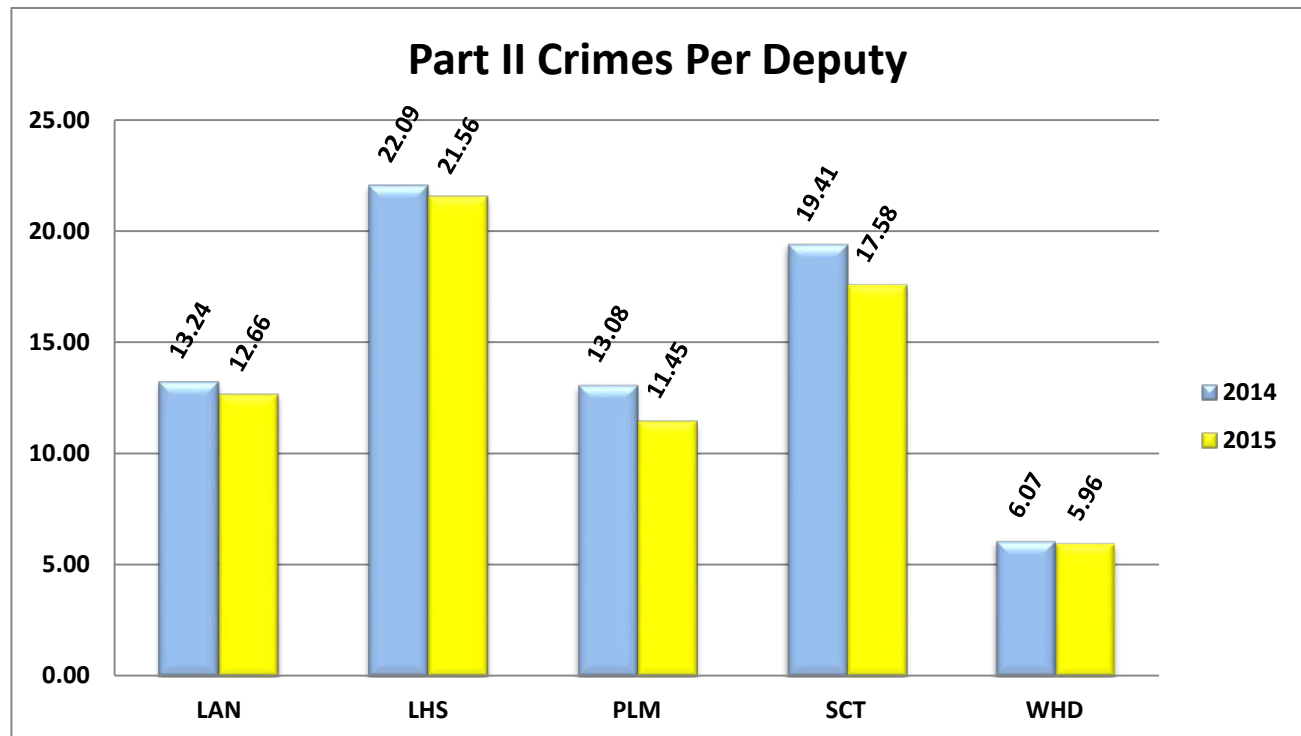

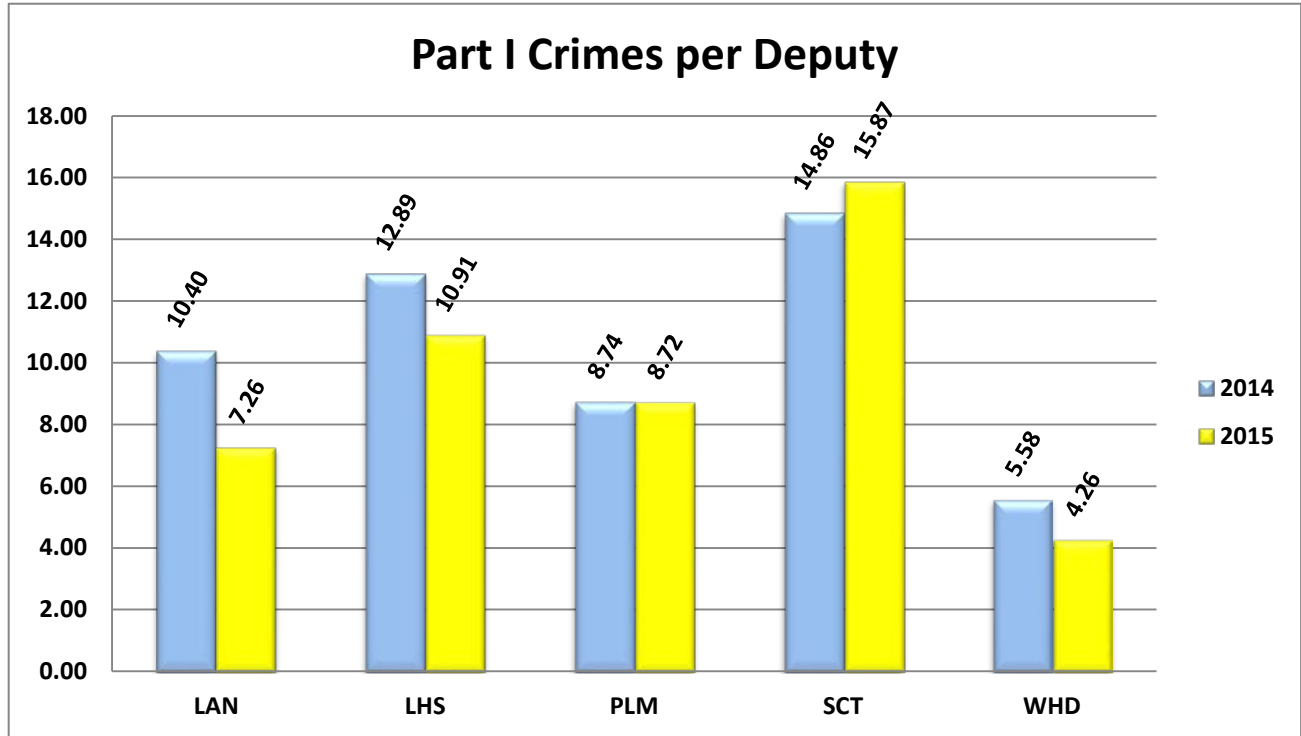

West Hollywood Station

The benefits of Phase I deputy personnel increase include a decrease in crime statistics and response times, and an increase in deputy self-initiated activity. Reported crime, response times, arrests and calls for service have decreased since 2014 and can be attributed to the increase in deputy personnel. Additional deputy personnel being visible deters crime, which allow us to be proactive, rather than reactive, and respond to the needs of the community. Being more proactive, deputies can contact more suspicious persons and/or be more visible, as a result preventing crime. By preventing crimes, calls for service decreased because deputies did not have a need to respond after the fact to a crime report call.

Central Patrol Division

STATION SUMMARIES

Avalon Station

This station shows that the overall number of arrests have decreased while the calls for service has increased. Avalon Station has received several positive comments from people in the community about the added law enforcement visibility which could be a factor to the decrease in arrests. The benefit has been in the distribution of workload per deputy. Isthmus deputies have no relief and during the busy seasonal period the workload increases and due to the remote location of the Isthmus, response times are delayed. This has allowed Avalon Station to increase maritime patrols in the unincorporated reporting districts.

Century Station

With the addition of two deputies, a PM car was added to the unincorporated area of Walnut Park. Due to this additional car, the station was able to focus on habitual crimes in the Walnut Park area. These crimes included street racing, cruising, prostitution, and illegal vendor sales. The additional unit also allowed Firestone units who would normally respond to calls for service in the Walnut Park area to stay and patrol their local area. The decrease in crime can be attributed to more deputies patrolling the streets which gives a higher visibility to the public. The station has focused on vehicle/home burglaries and has made significant arrests during the year. This has had a positive impact on statistics in those areas and improved response times.

Compton Station

With the addition of a one deputy unit in Compton Station's unincorporated area, it has assisted with workload per deputy. However, the increase in calls for service and arrests per deputy are as a result in an increase in daily population and businesses. The opening of nearby mental health facilities have also increased the population of mentally ill transients in the area that are creating business disturbances.

East Los Angeles Station

Overall, the benefit of the Phase I increase to East Los Angeles Station has improved response times, workload per deputy has been reduced, and better deployment. It has increased the ability at responding to calls for service and providing proactive law enforcement. With increased personnel, the station can be more successful in providing quality service in a timely manner. A higher deputy visibility has had an impact on the more serious Part I crimes like aggravated assaults.

Marina del Rey Station

The additional personnel has assisted with improved response times to calls for service and containments. The community members are pleased with the additional police presence. The station has noticed that the added directed patrol in the east end communities of Ladera Heights, Windsor Hills, and View Park, which were experiencing residential burglaries, has caused the crime to decrease slightly.

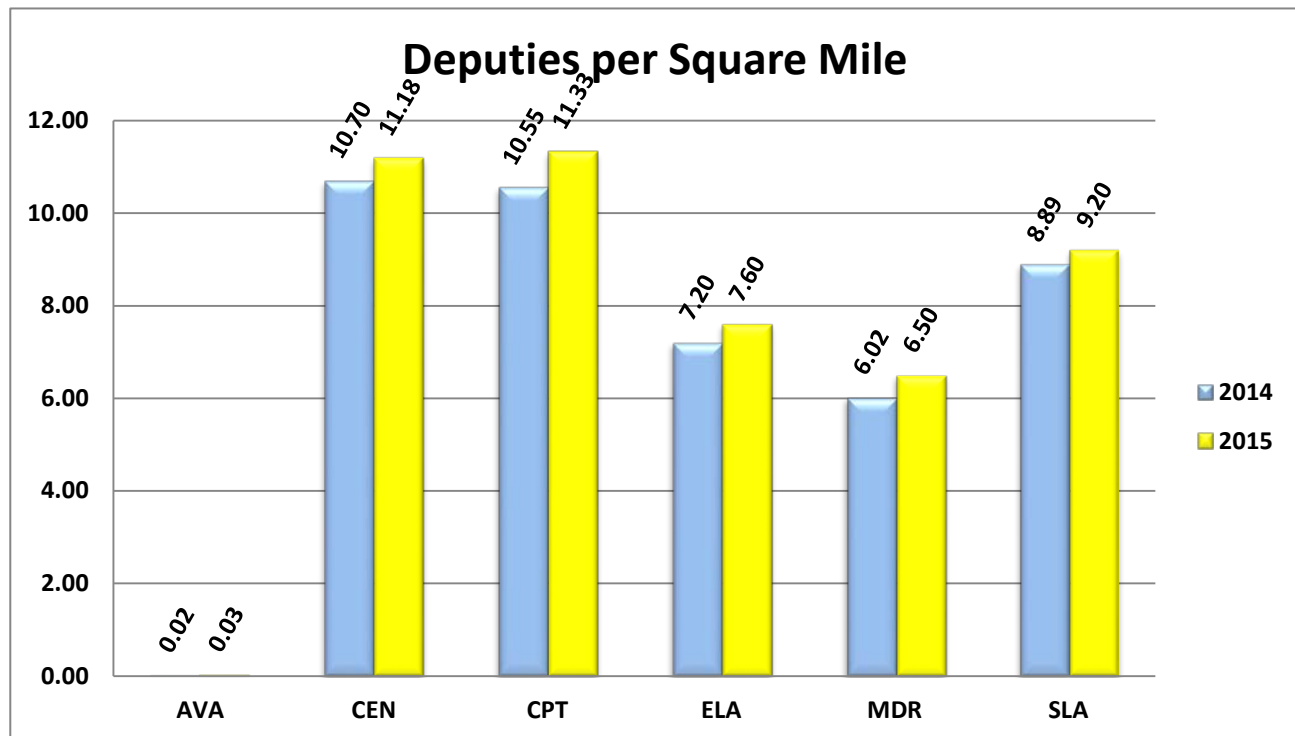

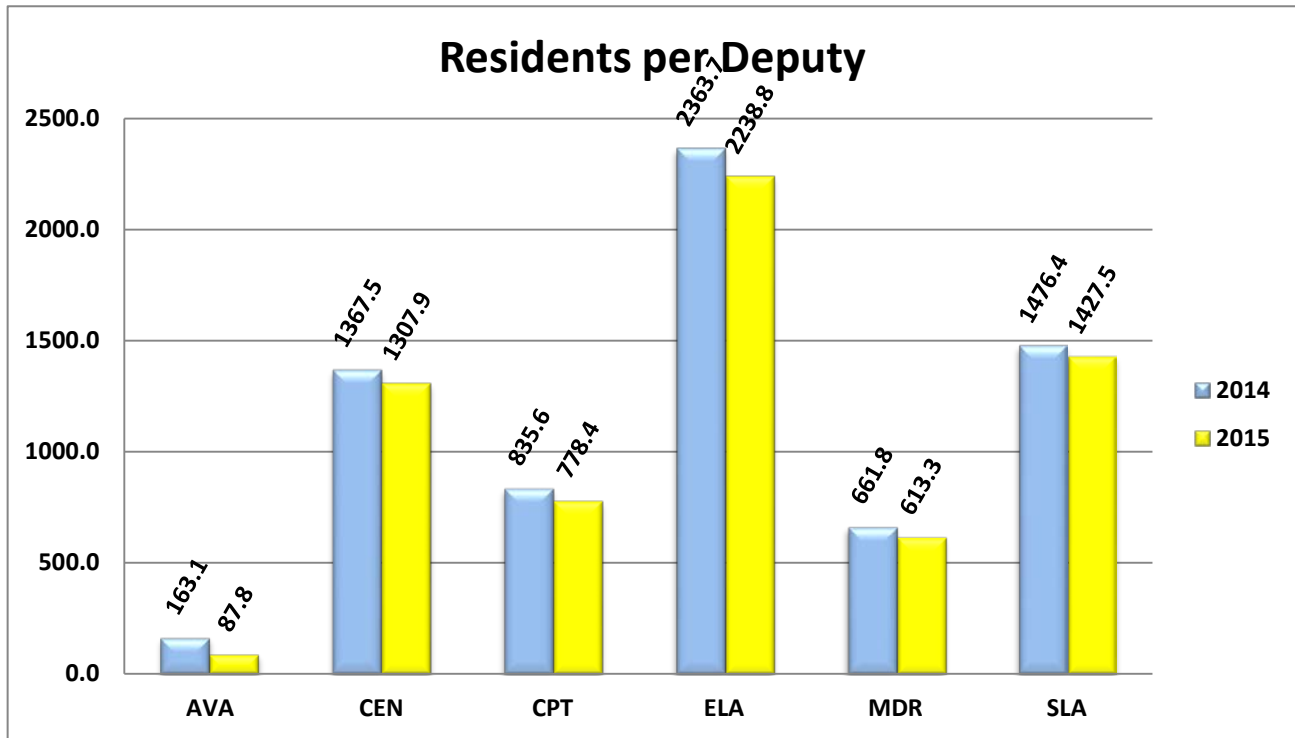

Central Patrol Division

STATION SUMMARIES

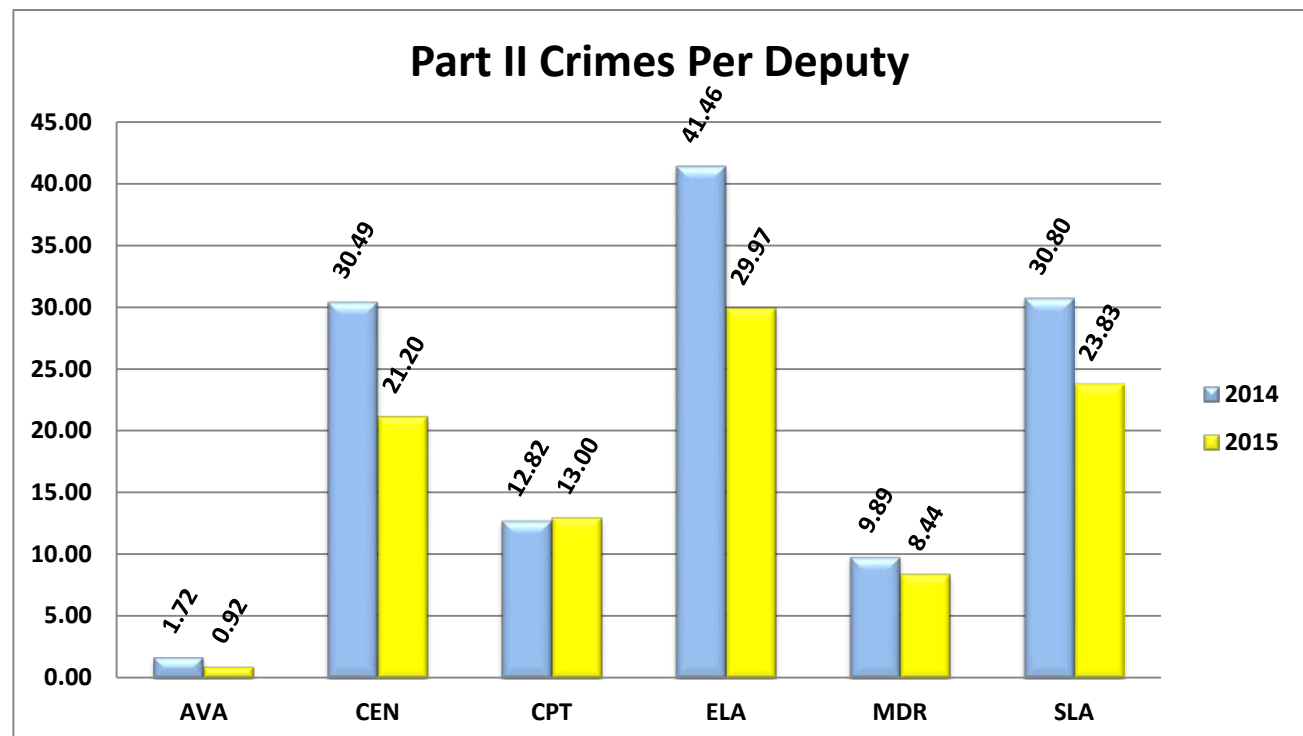

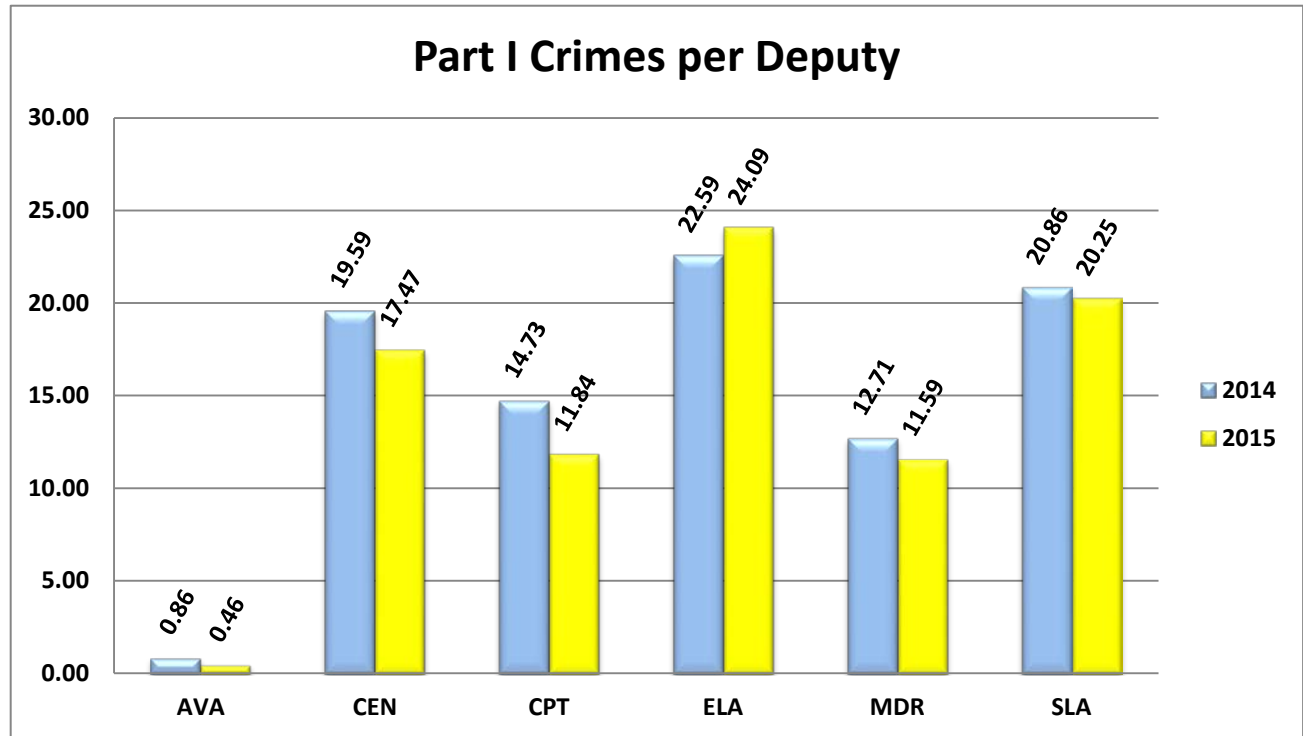

South Los Angeles Station

The additional personnel as a result of Phase I has assisted with officer safety, increased visibility, community engagement, better quality reports, and the ability to make more field contacts. Overall, high deputy visibility has contributed to a decrease in crime in the unincorporated area. With increased deployment, South Los Angeles Station has the ability to dedicate patrol units to target high crime areas. As noted in the 2015 statistics, the calls for service increased.

*Cerritos Station does not contain any unincorporated area

**Lakewood Station contains a very small unincorporated area that would not reflect accurate data.

South Patrol Division

STATION SUMMARIES

Carson Station

The additional deputies has tremendously assisted Carson Station's unincorporated areas improvement in response times, has increased deputy presence, and availability of deputies. The addition of Phase I deputies showed that reports and calls for service were spread out among a greater number of deputies.

Cerritos Station

- No personnel additions due to no unincorporated area.

Lakewood Station

- No personnel additions. This station shows that emergent and routine response time slightly increased in 2015 compared to 2014 statistical data. Lakewood Station has a very small unincorporated area.

Lomita Station

- No personnel additions. However, this station shows that Part I and Part II Crimes increased in 2015 compared to 2014 statistical data. Also, reports, calls for service, and routine response times increased in 2015.

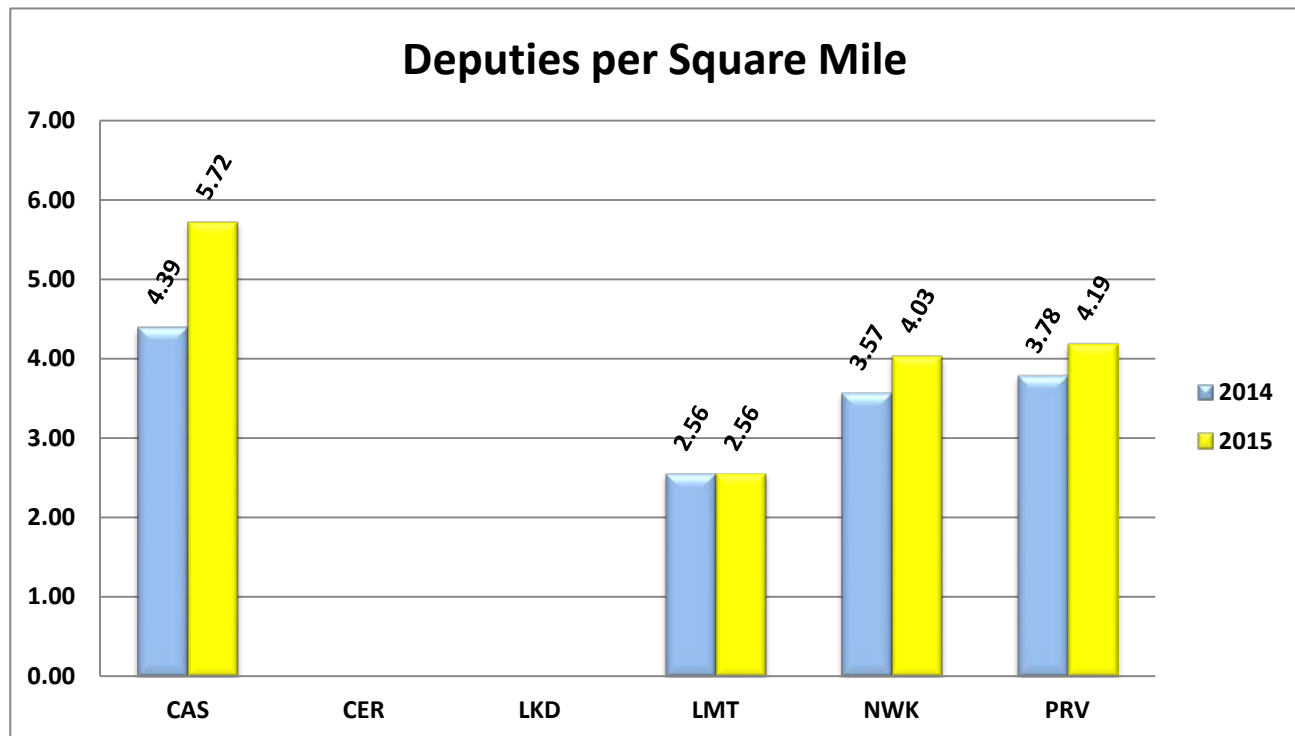

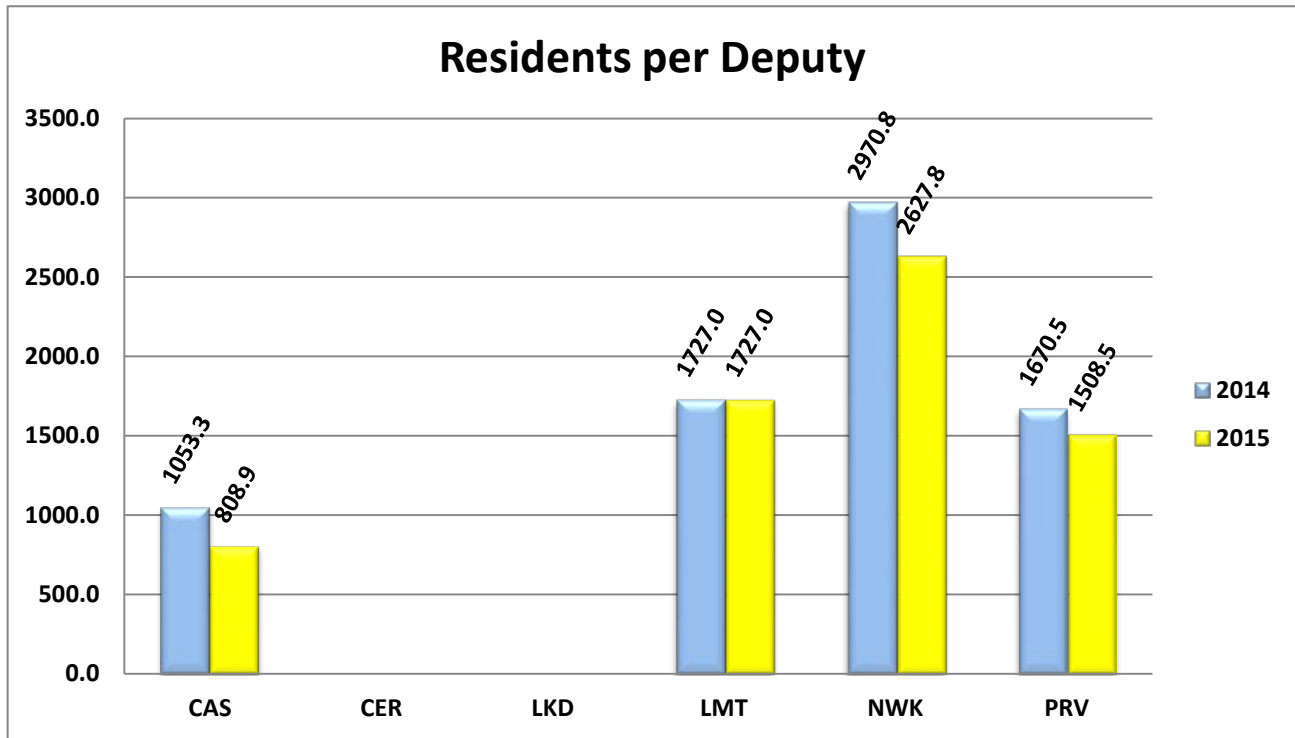

Norwalk Station

The increase in personnel led to a decrease in overall crime in Norwalk Station's unincorporated areas due to higher deputy visibility which created a deterrence to criminal activity. Also, the I-5 freeway construction project has created major traffic congestion in and around the Norwalk Station and Whittier area. Surprisingly, there was not a significant increase in response times as a result and likely resulted from the increase in deputies.

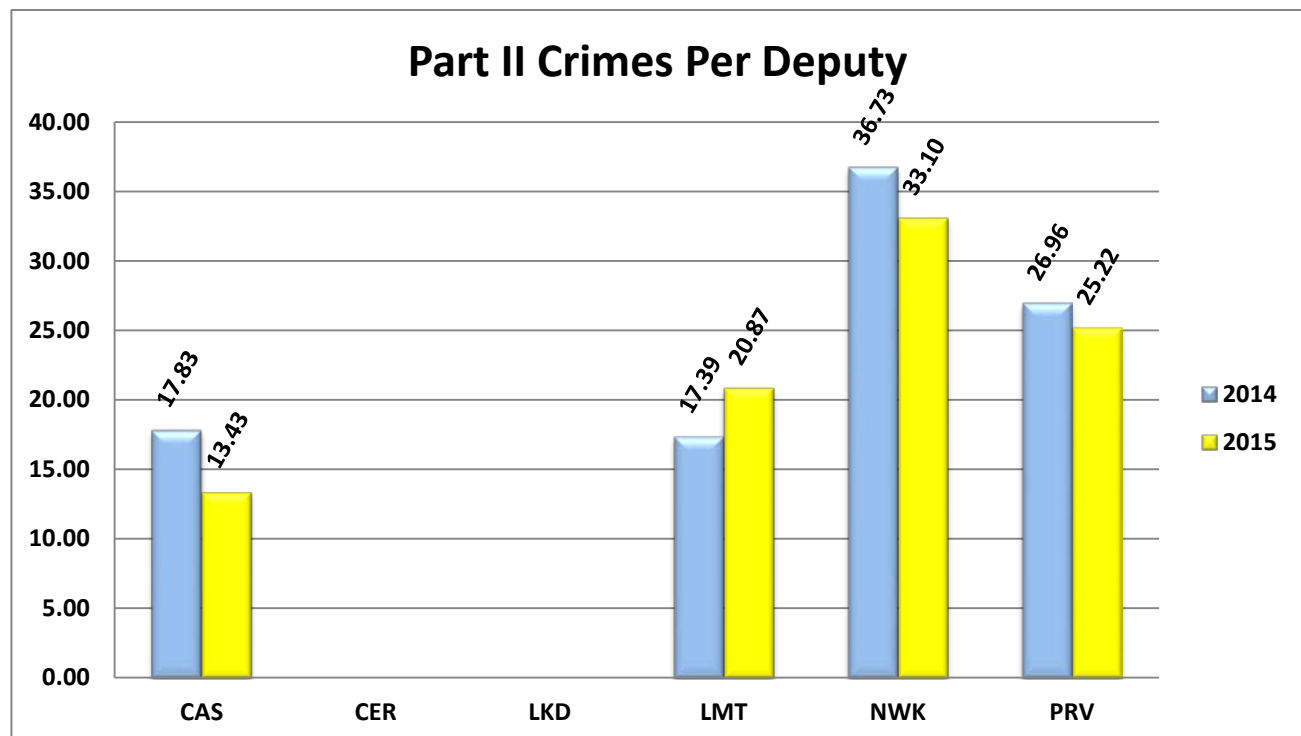

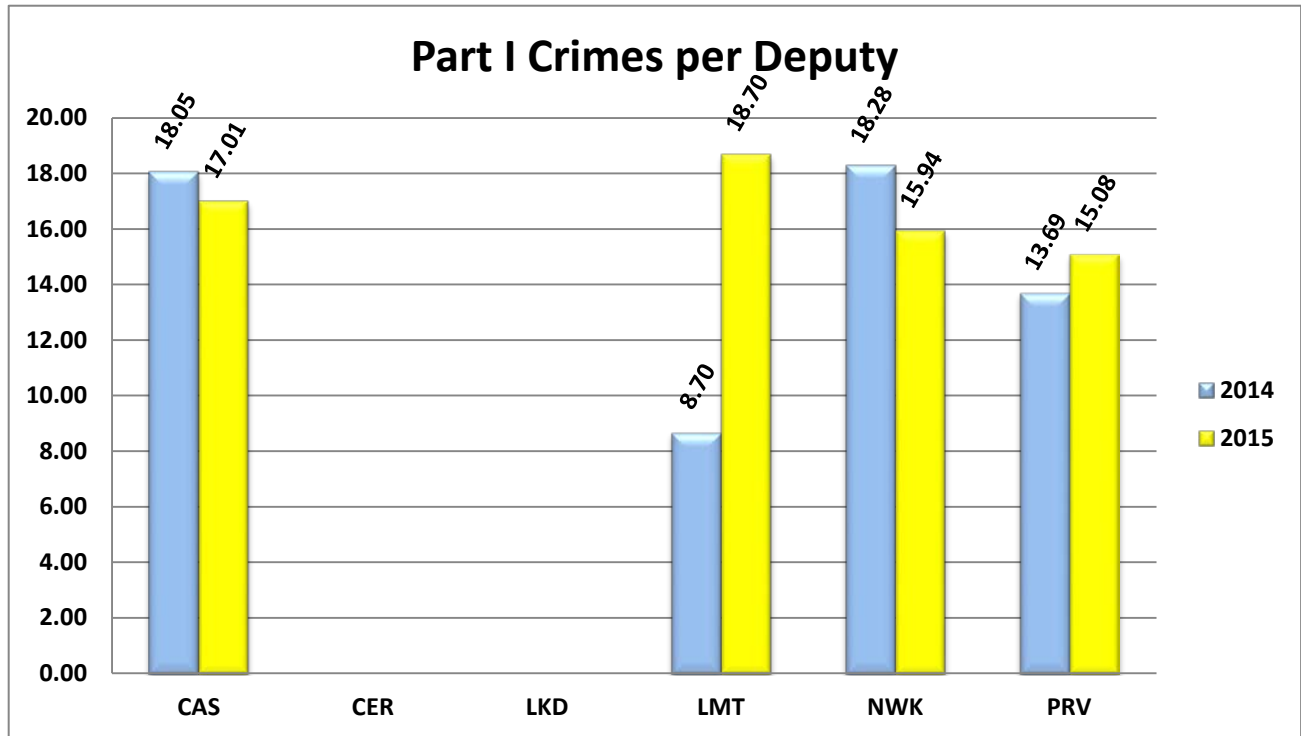

Pico Rivera Station

The benefits of the Phase I deputy addition has provided a higher visibility and an additional resource available to assist with handling calls for service in the unincorporated area. The statistics shows, the workload per deputy has decreased due to the additional personnel creating an equitable workload distribution. Overall, the outcome of additional resources improved response times and reduced Part II Crimes.

East Patrol Division

STATION SUMMARIES

Altadena Station

Increased visibility has assisted in suppressing crime in the unincorporated area. The deputy additions have allowed the station to provide higher visibility resulting in lower amounts of calls for service. The workload has spread more evenly among available deputy personnel. More deputies deployed in the field has allowed the station to respond to calls more quickly, especially to the mountains and the unincorporated Pasadena areas. With the additional resources, Altadena Station has been able to modify its deployment model to better assist the needs of the community with an emphasis on reducing gang-related crime.

Crescenta Valley Station

The addition of the Phase I personnel has enabled the station to dedicate a patrol unit in the Los Angeles Forest and mountain areas. Crescenta Valley Station patrols 280 square miles of the Angeles National Forest area which may possibly cause extended response times. Overall, there has been a reduction in response times to mountain area calls for service and has allowed the city units to remain in the city, which directly provides an increase in patrol visibility in the County area.

Industry Station

The additional deputies have assisted in focusing on target crimes and special problems. This has allowed deputies to focus their energy upon Part I crimes. Overall, the addition of the Phase I deputies has contributed to improved service, improved response times, and additional resources to level the workload per deputy.

San Dimas Station

The new deputies have provided an additional unit for the lower elevation regions of the station area; therefore, returning the mountain car to its normally assigned patrol area, the San Gabriel Mountains. The increase in personnel provides for a better average response time for calls for service as deputies respond to various calls in remote areas in the San Gabriel Mountains. Increased calls for service in the San Gabriel Mountains can easily attribute to the one minute difference in priority response times. Also, the additional patrol unit in the mountains is a big deterrent for fire suppression.

Temple Station

The Phase I increase of personnel has definitely benefitted the station by enhancing visibility in the community, handling calls for service, and general law enforcement. The added visibility and enforcement of the additional patrol deputies may have been a factor in decreased crime, therefore, fewer calls for service and reports. Temple Station's unincorporated areas are geographically isolated from each other and spread across 30 square miles of the station's patrol area. The additional personnel has contributed to improved response times.

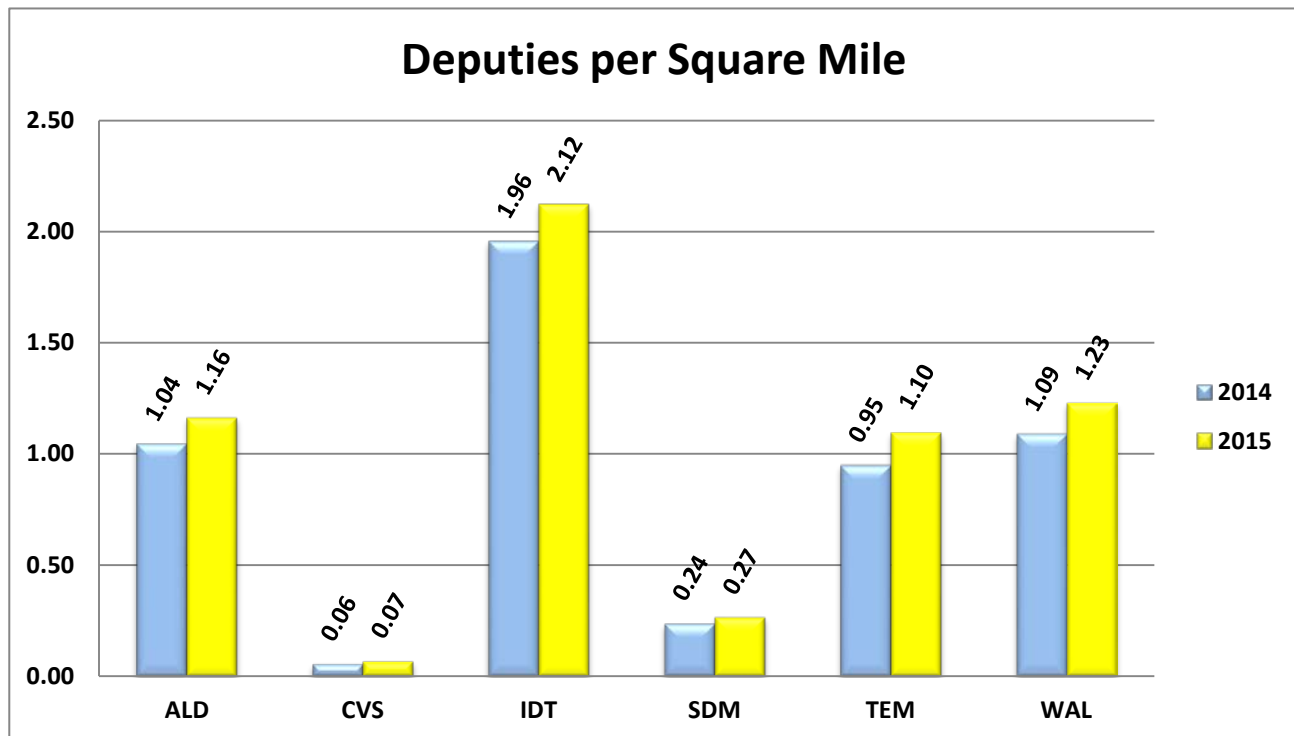

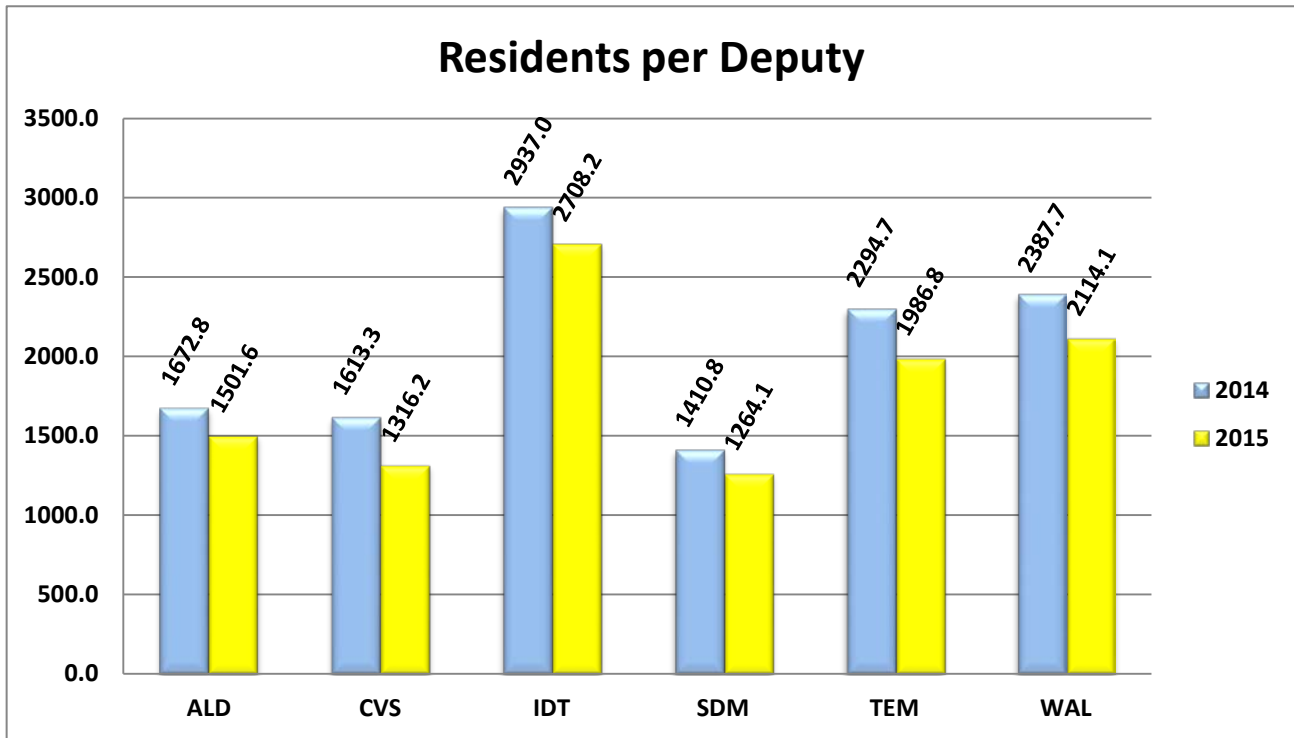

East Patrol Division

STATION SUMMARIES

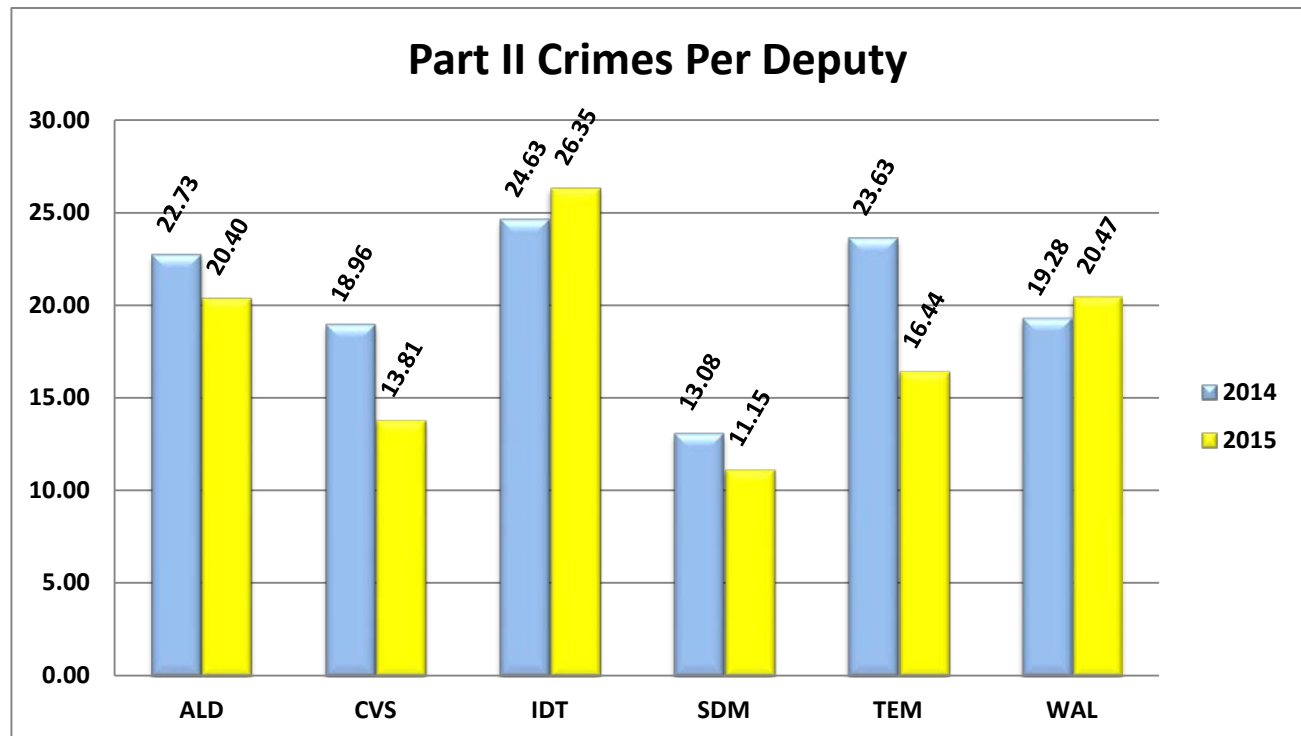

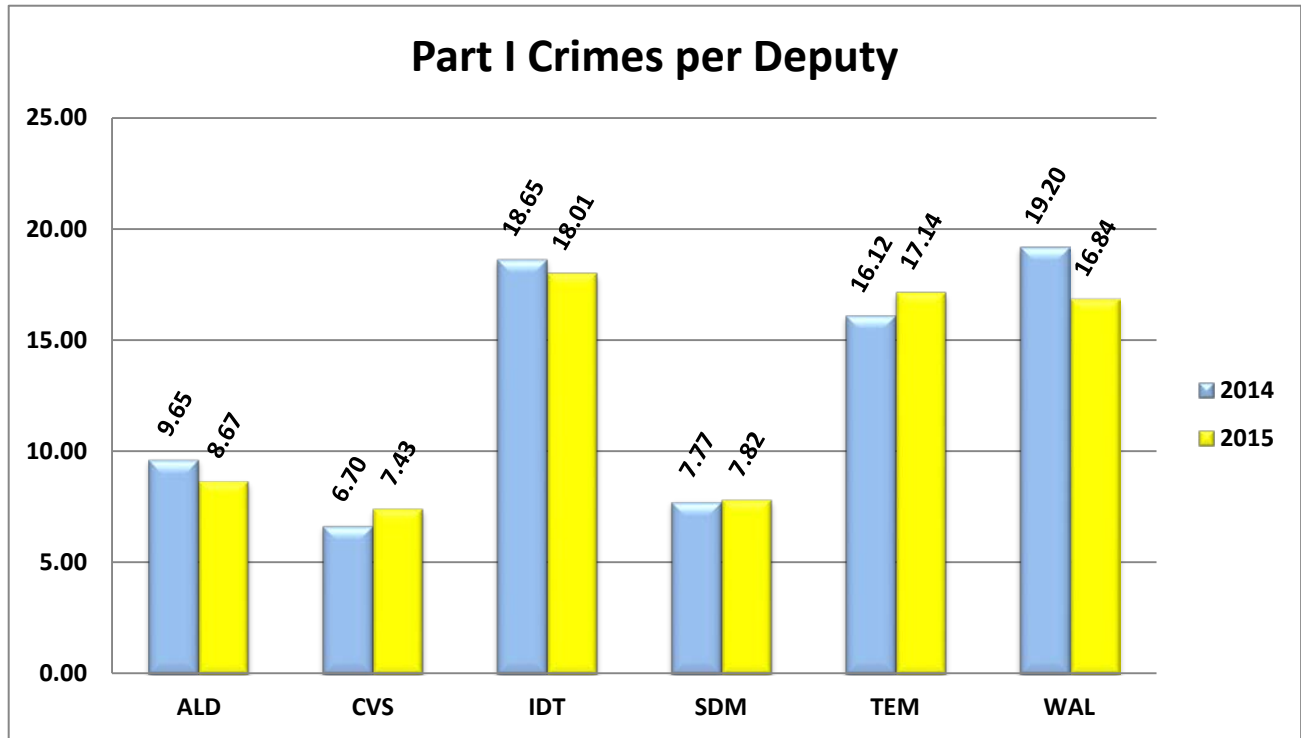

Walnut/Diamond Bar Station

The increase of additional staff in the unincorporated area has allowed the deputies to become more familiar with the crime trends and quality of life issues in Covina Hills and unincorporated West Covina. This has given the station the opportunity to assign deputies to special problems allowing for more time to focus on hot spots of activity and make arrests. The increase in personnel has showed improved response times.

September 2014 - August 2015

Hiring Process

- Previously implemented initiatives
 - Addition of Job Specific Questionnaire
 - VPAT moved to earlier phase of the process
 - Polygraphs pre-scheduled at background intake
 - Hiring Panels
- Pending initiatives
 - Implementation of eHire tracking program
 - (20) 120 day hires to assist with backgrounds, return to work efforts
 - “Selecting In” Initiative
 - Entry Level Testing Team (funded in-house)
 - Self-scheduling opportunities for written examination

LASD's Deputy Sheriff Trainee Hiring Process Timeline, Implemented 08/08/2014

Los Angeles County
Sheriff's Department

Efforts to Increase Diversity

- Role modeling and representation at female recruiting events by Personnel Captain, sergeant and two deputies assigned to Recruitment Unit
- Guidance from Feminist Majority Foundation
 - Input for ongoing recruitment campaign
- Partnership with Black Peace Officers Association
- Female deputies outreach to female applicants
- Outreach and testing within communities we serve

Military Recruitment Efforts

- Two 120 employees dedicated to military base recruiting
- Expedited testing (written, VPAT, Intake, Interview Polygraph condensed to one weekend)
- Two military reservists on recruitment team
- 15% of DST applicants are current/retired military
 - 6.5% female
 - 91.5% male
 - 2% unreported
- Military Webinar on August 26, 2015
(<https://www.youtube.com/watch?v=8zWlzd3tRoY>)
- Attendance at 11 military/veteran focused events since June 1, 2015

Digital Advertising Campaign Week 3

- Google / Yahoo / Bing Ads
 - 2,341 application starts at a unit cost of \$3.82
- Facebook Ads
 - 1,194 application starts at a unit cost of \$3.24
- 25% of females who click ads go on to apply (18% national average)
- Female applicants increasing
- Ads designed to specifically target female and African American applicants
- Clear differences in popularity of imagery used in campaign

Managing Existing Vacancies

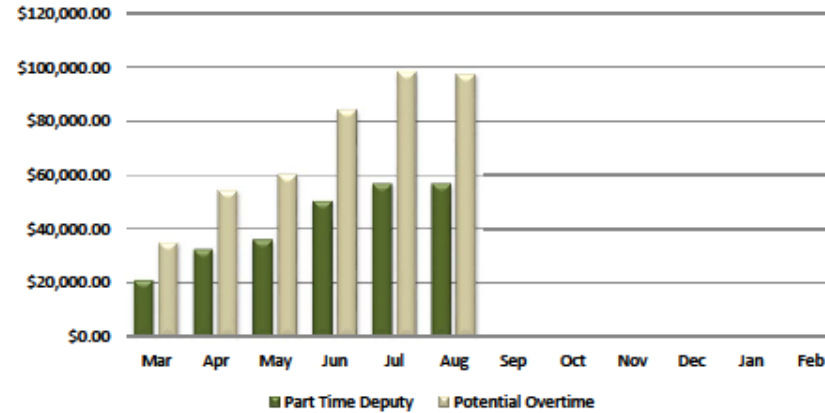

- Overtime
- Delay of additional growth
- Use of Part Time Deputy Program
 - Pilot program in Court Services Division

PART TIME DEPUTY PROGRAM
 March 2015 thru February 2016

Report Date: September 1, 2015

| Month | Positions | Hours | Part Time Deputy Expenditure | Potential Overtime Expenditure | Savings |
|--------------|-----------|-----------------|------------------------------|--------------------------------|------------------|
| March | 10.00 | 532.00 | \$21,136 | \$35,373 | \$14,236 |
| April | 13.00 | 821.50 | \$32,638 | \$54,622 | \$21,983 |
| May | 22.00 | 910.00 | \$36,154 | \$60,506 | \$24,352 |
| June | 22.00 | 1,268.00 | \$50,378 | \$84,309 | \$33,932 |
| July | 26.00 | 1,429.00 | \$56,774 | \$98,329 | \$41,555 |
| August** | 28.00 | 1,416.50 | \$56,278 | \$97,469 | \$41,192 |
| September | - | - | \$0 | \$0 | \$0 |
| October | - | - | \$0 | \$0 | \$0 |
| November | - | - | \$0 | \$0 | \$0 |
| December | - | - | \$0 | \$0 | \$0 |
| January | - | - | \$0 | \$0 | \$0 |
| February | - | - | \$0 | \$0 | \$0 |
| Total | - | 6,377.00 | \$253,358 | \$430,608 | \$177,250 |

PTD Expenditure vs. Potential Overtime Expenditure

- Overtime expenditure represents paid deputy replacement costs for Absence, Vacancy, IOD, Court Training and Jury Duty. Calculations based on the Trial Court Security deputy overtime rate.
- Savings represents part time deputy hours worked multiplied by \$39.73.

**PTD Shifts may adjust for the current month after the TCF System locks (10th of each month)
